

A Parent's guide to myOn: Introduction

Dear Parents,

Great news! Attached is your guidance for accessing a huge world of books using myOn learning.

Please note the following before reading through the guidance:

ZPDs – If you have one.

If your child currently has a ZPD, for their Accelerated Reading Scheme – keep using this information. So, for example, if your child has a ZPD range of 3.4-4.9, this will apply for their myOn selections. Do not panic, you will not need to remember it off the top of your head; simply click on the “connect now” button on the homepage to be directed to their recommended library.

ZPDs – If you do not have one.

If your child does not currently have a ZPD or does not use the Accelerated Reading Scheme, simply logon following the instructions in the guide and they will automatically be assigned to a library of books that is suitable for their ability.

Happy reading!
